BDQ-475 - Bitumen Solvent/Orange Degreaser (Emulsifiable in water)

Description

BDQ-475 is a solvent with bitumen and orange starting with vegetable solvents, and is fully emulsifiable in water, or when used in concentrate form it easily rinses off with water. BDQ-475 is biodegradable and non-toxic while having exceptional cleaning properties.

Characteristics and benefits

The BDQ-475 is a bitumen solvent and is BIODEGRADABLE, and emulsifiable in water, with powerful action intended for industrial and commercial applications. It easily dissolves tar, bitumen and heavy grease buildup which can accumulate on tools, equipment, and construction materials. With the product's versatility and regular maintenance, it eliminates the need for similar products used in this field.

The BDQ-475 is RESPECTFUL OF THE ENVIRONMENT: biodegradable and non-toxic, it is manufactured with renewable resources and contains no strong acids, oil distillate, nor chlorinated solvents.

The BDQ-475 is SEDENTARY: with its flash point higher than 130°C, it is not dangerous to operators; non-corrosive, does not attack red or white metals, and does not give off any volatile organic chemicals (VOCs).

Sizes available: 3.8 L (US Gallon), 20 L (Pail), 205 L (Drum).

Chemical and physical properties

Appearance and odor: Yellowish translucent liquid, with a citrus odor

Boiling Point: > 150°C

Flash Point: > 130°C

Density: 0.86 g/cm³ at 20°C

Solubility in water: Fully Emulsifiable

pH: Neutral

Warning statement

The product must be stored between 5°C and 50°C.

Availability **F.O.B. :Bolton, ON, Canada** **1 Gallon** **5 Gallon Pails** **Drums**
